Education

School of Computer Science, Nanjing University of Science and Technology Zijin College

Jiangsu · Nanjing, China

B.Eng. in Computer Science and Technology

2018.09 - 2022.07

- GPA 3.93/4.0 (98.25/100); ranked 5/80 (top 6%); ranked first college-wide in GPA in 2019
- Graduation project selected for the provincial “Golden Seed” outstanding thesis program

Experience & Leadership

A tutoring institution in Zhejiang, China

Zhejiang, China

Mathematics Teacher / Campus Teaching & Research Lead

2023.10 - 2026.06

- Achieved the highest first-year renewal volume in the campus: highest single-student renewal of 400 class hours, multiple students renewed 200 class hours, and senior high students extended contracts to the Gaokao or renewed 100 hours at once
- Maintained parent relationships proactively in group chats, reducing repeated follow-up by class teachers and consultants; renewal was typically completed by the class teacher in one conversation
- Received sustained positive parent feedback, student gifts, and a pennant; handled students with diverse family backgrounds, strong emotional fluctuations, and high parental expectations
- Selected as Headquarters Mathematics Team Lead based on teaching results and process management; became a shareholder/principal candidate the following year and served as Branch Campus Teaching & Research Lead, managing all teaching affairs at that campus
- Matched the exact multiple-choice question No. 7 in the 2025 National College Entrance Examination (Gaokao) Mathematics Paper I
- In 2026, a student achieved the institution's highest mathematics score (117 on Gaokao National Paper I); in a sibling comparison, the strongest incumbent math teacher taught the sister at the top local high school for 3 years while I taught the brother at a 4th/5th-tier key high school (59/100 on the pre-Gaokao institutional self-test) for 2 years, and the brother ended only 1 point behind the sister; teaching outcomes ranked No. 1 in the institution

Office of the Dean, School of Computer Science, Nanjing University of Science and Technology Zijin College

Research & Publications

Library Management System Integrating Facial Recognition and Blockchain Technology

Digital Technology &
Application

Second Author [Journal]

2021.02

- Proposed a TopN cold-start mitigation strategy combining content-based and collaborative filtering, validated on the 1000goodbooks dataset

Selected Projects

Computer Vision & Machine Learning

Invoice Text Recognition System

Jiangsu, China

Lead / Graduation Project

2022.04

- Built a CTPN + CRNN text recognition pipeline for invoices and extended it to bank cards, covering text detection, segmentation, and classification
- Designed and evaluated algorithms on the Pascal VOC dataset; graduation project selected for the provincial “Golden Seed” outstanding thesis program [\[Code\]](#)[\[Blog\]](#)[\[Video\]](#)

Facial Expression Recognition Based on Separated Hybrid Attention Mechanism

Jiangsu, China

Research Collaborator

2019.06

- Participated in model selection and adaptation for an ultra-light face detection model; completed cross-platform compilation and tuning from Windows to Linux
- Deployed the model on a Raspberry Pi to validate low-cost, real-time edge inference [\[Code\]](#)[\[Blog\]](#)[\[Video\]](#)

Multicolor Air Drawing with OpenCV

Jiangsu, China

Owner

2021.07

- Used OpenCV color filtering and segmentation in about 100 lines of Python to implement real-time color recognition and air-drawing
- Awarded national software copyright [\[Blog\]](#)[\[Video\]](#)

Library Management System Integrating Facial Recognition and Blockchain

Jiangsu, China

Co-developer

2021.02

- Developed a hybrid recommendation system combining content-based and collaborative filtering with TopN cold-start mitigation, validated on the 1000goodbooks dataset
- Contributing paper published as second author in Digital Technology & Application

Open Source & Technical Communication

Gridea Theme Next · Personal Blog · Bilibili

Zhejiang, China

Open Source Contributor / Technical Creator

2021 - 2023

- Submitted 50+ source code changes to Gridea Theme Next, fixing issues, improving visuals, and adding a blog runtime statistics feature
- Continuously publish CV/ML practice through a personal blog and GitHub; Bilibili technical content has accumulated 800k+ views
